FOR IMMEDIATE RELEASE

Warren Paving Files Application to Construct Bulkhead on Industrial Seaway

BILOXI, Miss. – Warren Paving Inc. has filed an application with the Mississippi Department of Marine Resources (MDMR) requesting permission to conduct regulated activities under the provision of the Coastal Wetlands Protection Law Act, Title 49, Chapter 27, Mississippi Code of 1972.

The applicant is proposing to carry out construction activities to support barge loading/unloading and shoreline stabilization on the Industrial Seaway in Gulfport. The project is located at 11211 Reichold Road, Gulfport, Miss. The applicant is requesting authorization for the construction of 688 linear feet of bulkhead. The creation of the bulkhead will involve filling approximately 15,332 square feet of man-made waterbottoms. The applicant has also requested authorization to install three mooring pilings.

In compliance with Section 401 of the Federal Water Pollution Control Act, the applicant will request certification from the Office of Pollution Control that the above-mentioned activity will be in compliance with applicable provisions of the Act and appropriate requirements of the State Law.

Any person wishing to make comments or objections to the proposed regulated activity must submit those comments in writing to the Mississippi Department of Marine Resources at 1141 Bayview Avenue, Biloxi, MS 39530 and the Office of Pollution Control, Post Office Box 2261, Jackson, MS 39225-2261 before 1 p.m. on June 18, 2012.

The Mississippi Department of Marine Resources is dedicated to enhancing, protecting and conserving marine interests of the state by managing all marine life, public trust wetlands, adjacent uplands and waterfront areas to provide for the optimal commercial, recreational, educational and economic uses of these resources consistent with environmental concerns and social changes.
