### ADMINISTRATIVE PROCEDURES NOTICE FILING

AGENCY NAME: Department of Marine Resources		CONTACT PERSON: (With grant only)	TITLE/PHONE NUMBER: 228-513-4106	
ADDRESS: 2147 Highway 49		CITY: Biloxi	STATE: MS	ZIP: 39530
EMAIL: WMLa.bradley@dms.ms.gov	DATE: 07/19/2018	Name of rule(s) being filed: Title 26, Part 29 - Rules and Regulations for the Coastal Wetlands Protection Law and the Biological Control Program		

Short description of rule/amendment/revision and reason(s) for proposing rule/amendment/revision: To provide for the regulation of certain activities within the Coastal Zone and associated coastal watersheds for the conservation and protection of the biological integrity of the Coastal Wetlands, and to reserve suitable sites for water dependent industries for the use of those industries to the maximum extent practicable. This will bring existing regulations into Title 26 and make them consistent with the current format for ADMR regulations.

Specific legal authority authorizing the promulgation of rule: § 57-15 (1) and § 49-27-59

List of rules repealed, amended, or suspended by the proposed rule: N/A

**ORAL PROCEEDING:**

An oral proceeding is scheduled for this rule on: Date: \_\_\_\_\_ Time: \_\_\_\_\_ Place: \_\_\_\_\_

Presently, an oral proceeding is not scheduled for this rule.

If an oral proceeding is not scheduled, an oral proceeding may be held if a written request for an oral proceeding is submitted by a qualified individual, an agency or firm (17) or more persons. The written request should be submitted to the agency contact person at the above address within twenty (20) days after the filing of this notice of proposed rule advice and should include the name, address, email address, and telephone number of the person(s) making the request; and, if possible, an agency attorney, the name, address, email address, and telephone number of the party or parties you represent. At any time within the previous (20) day public comment period, written submissions including arguments, data, and studies on the proposed rule/amendment/revision may be submitted to the filing agency.

**ECONOMIC IMPACT STATEMENT:**

Economic impact statement not required for this rule.  Concise summary of economic impact statement attached.

### Public Notices

#### Title 22 Part 23 – Rules and Regulations for the Coastal Wetland Protection Act and the Mississippi Coastal Program - Proposed Adoption

The Mississippi Department of Marine Resources (MDMR) does hereby give public notice that on June 19, 2018 at the regularly scheduled meeting of the Commission on Marine Resources, the Commission approved a Notice of Intent to adopt Title 22 Part 23. Said Notice of Intent was filed with the Mississippi Secretary of State's office on July 19, 2018. A complete copy of Title 22 Part 23 is available at [www.dmr.ms.gov](http://www.dmr.ms.gov). Public comments on the proposed regulation changes will be accepted through August 20, 2018. All comments should be mailed to the MDMR, Attn: Willa Brantley, 1141 Bayview Avenue, Biloxi, MS 39530, faxed to 228-374-5008, or emailed to: Willa Brantley at [willa.brantley@dmr.ms.gov](mailto:willa.brantley@dmr.ms.gov) and delivered by 5:00 PM on August 20, 2018.

Title 22 Part 23, if adopted, will bring regulations that currently exist as the Mississippi Coastal Program (authorized by MS Code § 57-15-6(1) and § 49-27-59) into Title 22 and make them consistent with the current format for MDMR regulations. These regulations have been revised to update agency names and responsibilities, reflect legislative changes, and make the document as a whole more streamlined and accessible. This is not a substantive change to the Program.

# Public Comments

- Notice of Intent Published on July 19, 2018
- Public Comment period July 19<sup>th</sup> through August 20<sup>th</sup>, 2018 (32 days)
- MS SOS submitted comments with 8 requested changes

ENHANCE ★ PROTECT ★ CONSERVE

# Public Comments

cont.

- Include SOS as a Coastal Program Agency
- Require that an application include proof that a Tidelands lease has been applied for or is not required to be complete
- Add that Coastal Preserve System designations will be coordinated between MDMR and SOS
- Remove reference to DEQ as a leasing agency in the Coastal Wetlands Use Plan chapter
- Remove Tidelands leases from the list of State Agency Actions Subject to Review
- Add definitions of 4 terms

ENHANCE ★ PROTECT ★ CONSERVE

# Public Comments

cont.

- Current text Chapter 08, 103.01:
  - For erosion control, nonstructural methods must be used in preference to structural methods. Vegetation as a nonstructural method is preferred to structural methods of sloping (3:1) rip-rap, and rip-rap is preferred to vertical seawalls. Vertical face bulkheads may be used only in low energy areas such as canals, bayous, tidal rivers, protected ports and harbors.

ENHANCE ★ PROTECT ★ CONSERVE

# Public Comments

cont.

- Proposed change:
  - For erosion control, nonstructural methods must be used in preference to structural methods. Vegetation as a nonstructural method is preferred to structural methods of sloping (3:1) rip-rap, and rip-rap is preferred to vertical seawalls. Use and failure of nonstructural or sloping rip-rap for 3 years must be demonstrated prior to request and approval of vertical face bulkhead or other erosion control method. Vertical face bulkheads may be used only in low energy areas such as canals, bayous, tidal rivers, protected ports and harbors.

ENHANCE ★ PROTECT ★ CONSERVE

# Public Comments

cont.

- These would all be considered a Substantive Change by NOAA. At this time, we are only proposing a Routine Programmatic Change.
- This programmatic change is required by NOAA and was included as an Action Item on our last program review.
- These SOS changes will be considered at a later date when we are ready to propose a Substantive Change to the program.

ENHANCE ★ PROTECT ★ CONSERVE

## Public Affairs – September 2018

---

The MS Department of Marine Resources was mentioned 19 times in local, state and national media since the August CMR meeting. Popular news items included the reopening of Snapper season and National Heritage Area's work with eco-tourism projects.

Marine Patrol taught one boat-and-water safety class and certified five students. So far in FY19, officers have taught six classes and certified 106 students.

Marine Patrol also participated in Education Day at the Biloxi Shuckers baseball game, the Harrison County Youth Fishing Rodeo and Biloxi's annual Fight against Crime event.

Our agency also participated in various events in the community. Jason Rider gave a presentation on off-bottom aquaculture at Moss Point High School and Jessica Rankin in the Office of Marine Fisheries demonstrated an oyster dissection to a zoology class at Harrison Central High School.

Marine Patrol, along with Public Affairs and volunteers from throughout the agency, took part in the Biloxi Seafood Festival September 8 and 9. In addition to having a Marine Patrol Boat on display, we handed out our rules and regulations publication, fish ruler stickers, fish posters, items from the National Heritage Area and other informational pieces to the public.

Since the last CMR meeting, the agency's Wellness Committee hosted a Health and Wellness Fair where our agency, along with the others in this building, were invited to attend the day long event. Marine Fisheries and Human Resources set up the Cookies for a Cure Bake Sale where proceeds would be donated to the American Cancer Society. This year, \$125 was donated to the organization adding to a total of \$1,712 that has been donated from MDMR to the American Cancer Society since 2013.

# Oyster Depuration Overview

Ruth Posadas  
September 18, 2018

K.1.

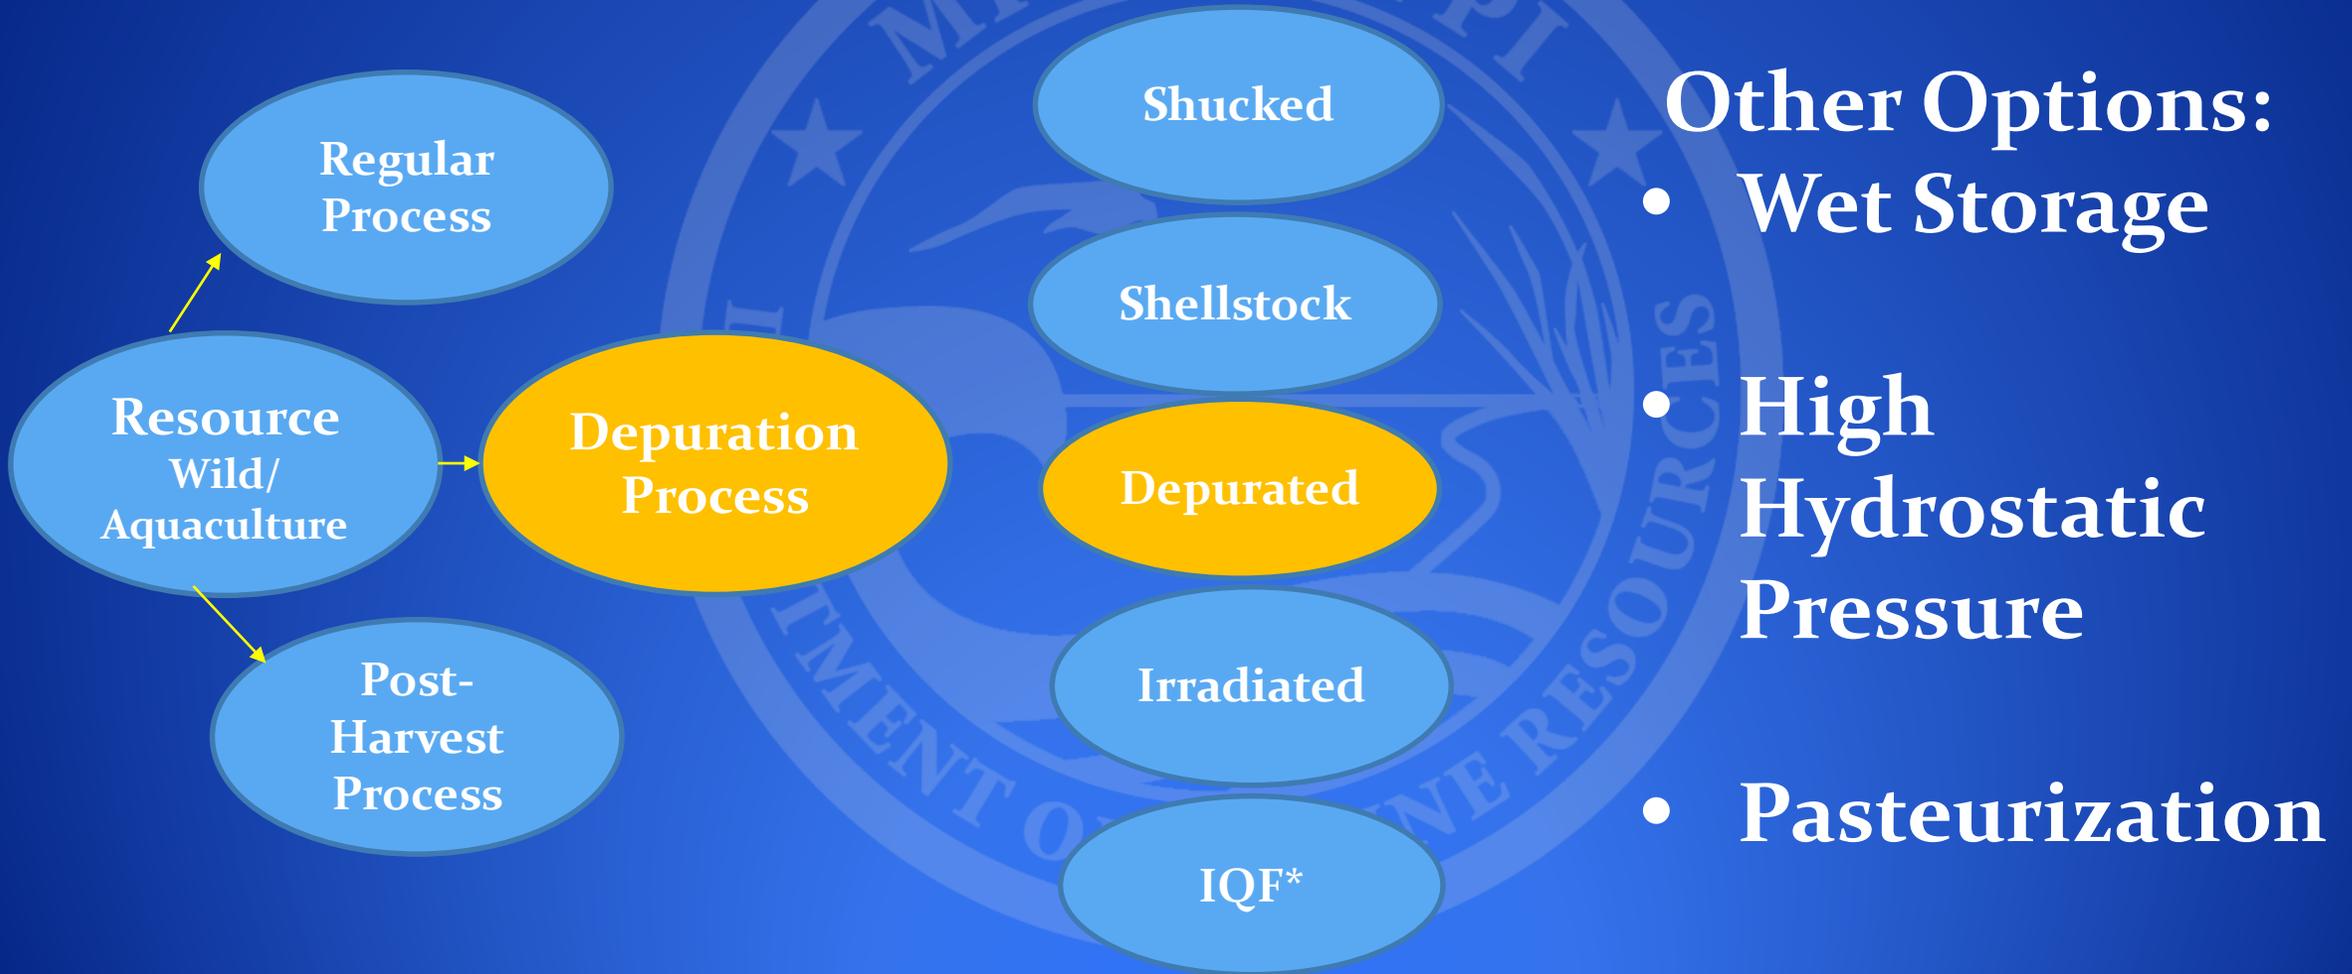

# Background

**CMR Motion (May 15):** For DMR to comeback with recommendations to develop a program for a depuration facility and to develop a feasibility study, a cost analysis and a funding source.

# Needed Actions

- Develop an Oyster Depuration Program
- Develop a Feasibility Study
- Present a Cost Analysis
- Find a Funding Source

# Oyster Processing Options and Products

- Other Options:**
- Wet Storage
  - High Hydrostatic Pressure
  - Pasteurization

\* Individually Quick Frozen    (blue oval) Available Options    (yellow oval) Proposed Option

# Oyster Depuration Program Needs

- Guidelines to Build a Program – (Rules and Regulations)
- Site Selection – (Technology, Water and Resource)
- Facility – (Plant Design, Construction, Equipment and Operating System)
- Labor – (Expertise for Management and Trained Manpower)
- Utilities – (Power and Potable Water)
- Laboratory – (In-house/Independent FDA Certified Lab)
- Regulatory Concerns – (Inspector, Permits, Licenses and Certifications)
- Feasibility Study – (Cost Benefits and Returns)

# Site Selection

- **JACKSON COUNTY - Commission Recommendation**
  - Available Water (Source/Effluence outlet)
  - Available Technology
  - Limited Expertise
  - Private/State Laboratory
  - Limited Manpower
  - Limited Resource

# Standards for Depuration

## Flow Rate:

1 gal/ minute/bushel  
(0.626 sack)

## Volume of water:

59.84 gallons/bushel

## Salinity:

10 ppt to 30 ppt

## Turbidity:

0-20 units

pH: 7.0 – 8.4

## Temperature:

$\leq 60.7^{\circ}\text{F} / 77^{\circ}\text{F}$

American Oyster spawns  $\geq 60.7^{\circ}\text{F}$   
Gulf of Mexico Oysters  $\geq 77^{\circ}\text{F}$

## Dissolved Oxygen:

5.0 mg/L to saturation

## Bacteriological:

(Total Coliform/100 ml):  
0 to < 1

## Minimum Depuration

### Time:

$\geq 44$  hours

# Regulatory Requirements

## MUST HAVE:

- License: MS Seafood Dealer's License (MDMR)
- Permit: MS Aquaculture Permit (MDAC)
- Certification: MS –001– DP (MDMR)
- Depuration Plant Operations Manual (Company)
- Memorandum of Agreement (MS and another state)
  - The company plans to do business with a dealer from a different state as source or a receiver of depurated oysters
- Laboratory to analyze bacteriological contents of water and end product testing

# A FEASIBILITY STUDY

A feasibility study will be contracted to conduct an economic feasibility of a depuration plant in Jackson County with cost analysis on the specific requirements of a depuration plant.

# POTENTIAL FUNDING SOURCES

- Feasibility Study – Tideland’s Funds/BP Restore Funds
- Partner with Colleges or Universities to get federal funding from the Department of Labor and Department of Education under the Mandated Workforce Innovation and Opportunity Act (July 22, 2014)
- Depuration Plant – Collaboration with Local Government and Private Sector
- Saltonstall-Kennedy Grant (NOAA) – Address the Needs of Fishing Communities

# Title 22 Part 7 Chapter 9

# Spotted Seatrout Endorsement

Matt Hill  
September 18, 2018

K.2.

# Background

August 21<sup>st</sup> the CMR passed a motion to withdraw the original NOI.

Additionally, at the August meeting, the CMR made a motion for staff to prepare language addressing charter for-hire industry Spotted Seatrout endorsement qualifications.

## Withdrawn NOI Language for Title 22 Part 7 Chapter 09 Commercial Size, Possession and Catch Limits Section 110

Beginning January 1, 2019 individuals commercially harvesting Spotted Seatrout (*Cynoscion nebulosus*) must possess a Spotted Seatrout endorsement (\$10.00) in addition to a current applicable harvester's license. To qualify for this endorsement an application must be completed. For the 2019 fishing season the fisher must present documentation that a minimum of twenty (20) percent of their taxable income came from commercial fishing activities in a previous tax year between 2013-2018. Documentation shall be a copy of the appropriate filed IRS tax form showing the applicant's taxable income for one of those years. A Marine Fisheries Trip Ticket officer will then run a sales summary for the year chosen using trip tickets to determine if the eligibility requirement has been met. This endorsement will be valid for a one-year period at which time a new application with qualifying documents for the previous tax year shall be submitted for a new endorsement. The endorsement will be valid from January 1<sup>st</sup> – December 31<sup>st</sup> each year. In the event of a hardship approved by the Commission, the department may consider qualifying documents for the two years prior to the onset of the hardship.

# Charter For-Hire Income Consideration

Charter for-hire owners/operators shall be allowed to use income from charter for-hire activities to qualify for the Spotted Seatrout endorsement. For the 2019 fishing season the fisher must present documentation that a minimum of twenty (20) percent of their taxable income came from charter for-hire and/or commercial fishing activities in a previous tax year between 2013-2018. Documentation shall be a copy of the appropriate filed IRS tax form showing the applicant's taxable income for one of those years. A Marine Fisheries Trip Ticket officer will determine the income derived from charter for-hire activities then run a commercial sales summary for the year chosen using trip tickets to determine if the eligibility requirement has been met. This endorsement will be valid for a one-year period at which time a new application with qualifying documents for the previous tax year shall be submitted for a new endorsement. The endorsement will be valid from January 1<sup>st</sup> – December 31<sup>st</sup> each year. In the event of a hardship approved by the Commission, the department may consider qualifying documents for the two years prior to the onset of the hardship.

# Current Endorsements

Upon approval of the proposed regulation change to Title 22 Part 7 Section 110 all Spotted Seatrout Endorsements shall expire November 16, 2018.

# Required:

A motion for Notice of Intent of regulatory changes to Title 22 Part 7 Chapter 9 Section 110 modifying the requirements for the Spotted Seatrout Endorsement

Modified: A motion to send the language that was withdrawn last month out for Notice of Intent for regulatory changes to Title 22 Part 7 Chapter 9 Section 110 modifying the requirements for the Spotted Seatrout Endorsement

## Public Notices

### Title 22 Part 05 - Cat Island Net Exclusion - Proposed Changes

The Mississippi Department of Marine Resources (MDMR) does hereby give public notice that on July 17, 2018 at the regularly scheduled meeting of the Commission on Marine Resources, the Commission approved a Notice of Intent to update, modify and change below listed sections of Title 22 Part 5. Said Notice of Intent was filed with the Mississippi Secretary of State's office on July 18, 2018. A complete copy of Title 22 Part 5 and the proposed changes are available at [www.dmr.ms.gov](http://www.dmr.ms.gov). Public comments on the proposed regulation changes will be accepted through August 20, 2018. All comments should be mailed to the MDMR, Attn: Joe Jewell, 1141 Bayview Avenue, Biloxi, MS 38530 or emailed to: [Joe.Jewell@dmr.ms.gov](mailto:Joe.Jewell@dmr.ms.gov) and delivered by 5:00 PM on August 20, 2018.

#### Complete description of proposed changes:

**TITLE 22 – MISSISSIPPI DEPARTMENT OF MARINE RESOURCES, PART 5 Rules and Regulations that Establish Restrictions Governing the Use of Nets, Fish Traps and Pots Within the Territorial Waters of the State of Mississippi and Establishing Certain Catch Limitations and Quotas**

**Chapter 04 Commercial Net Closure Areas and Gear Size Restrictions Section 101**

**101.04** Within an area formed by a line running one (1) mile from the shoreline of Cat Ship, Horn, Peat Bolt, and Round Island, or from the shoals of Telegraph Keys and Telegraph Reef (Merrill Coaulle), during the period from May 15 to September 15 of each year:

**101.05** Within an area formed by a line running one (1) mile from the shoreline of Cat Island

**101.05-101.06** Within twelve hundred (1,200) feet of any private piers which extend a distance of seventy-five (75) feet or more from the shoreline, except when mullet fishing.

**101.06-101.07** Within three-hundred (300) feet of any private piers which extend a distance of seventy-five (75) feet or more from the shoreline when mullet fishing.

**101.07-101.08** All of the aforementioned piers must be in usable condition with boards spaced in such a way that persons can walk the entire distance of the pier.

**100-09-101.09** It shall be unlawful for any person, firm, or corporation to use at any time trammel nets, gill nets, seines, or any other like contrivances in excess of twelve-hundred (1200) feet in length. Except when fishing gill and trammel nets between October 15 through December 15 of each year, nets must be of a mesh size of one and one-half (1-1/2) inch square, three (3) inch stretch or larger, and it shall be unlawful for any boat to use more than one (1) such net. Between October 15 through December 15 of each year, gill and trammel nets must be of a mesh size of one and three-fourths (1-3/4) inch square, three and one-half (3 1/2) inch stretch or larger, and it shall be unlawful for any boat to use more than one (1) such net.

**100-09-101.10** It shall be unlawful for any person, firm, or corporation other than licensed menhaden vessels engaged in menhaden fishing, to use or have in possession purse seine(s) in excess of fifteen hundred (1500) feet in length. Said nets must be of a mesh size of one-half (1/2) inch square, one (1) inch stretch or larger.

**100-10-101.11** It shall be unlawful for any person, firm, or corporation to leave a gill net, trammel net, purse seine, seine or any other net like contrivance governed by the restrictions set forth in this Part unattended in the waters of this state, and at least one person shall be required to stand by, within one boat length of the boat using said net, at all times the net is in the water. It shall further be unlawful for any person, firm, or corporation to use or have in their possession a gill net, trammel net, seine or like contrivance on the waters of this state without a visible buoy attached every one hundred (100) feet clearly marked with the license number or owner's full name thereon.

(An update of the petition submitted on August 21, 2018 with then 19,446 commenters.)

### Demand an End to the Purse Seine/Gill Nets in Mississippi

<https://www.thepetitionsite.com/327213196/demand-an-end-to-the-purse-seine-gill-nets-in-mississippi/>

Author: JL McNew  
Recipient: Phil Bryant, Governor, Commission on Marine Resources, Steve Bosarge, Chair, Department of Marine Resources, Joe Spraggins

#### Petition:

Mississippi currently allows Purse Seine/Gill nets in a commercial fishery that indiscriminately kills all marine life. They claim this is sustainable fishery but it has been proven over the last 25 years that it isn't. The fishery is destroying the spotted sea trout population as well as habitat and forage fish that supports the ecological structure of Mississippi coastal waters. The boats also are avoiding trip limits by selling out of state.

The state has provided them with a monopoly with no checks and balances on a fishery that is considered overfished already. Why are there numerous restrictions on recreational fishery while the state blatantly allows the harvest and destruction of these trout in prime spawning grounds and season by the nets?? We have no issue with the hook and line commercial fishery but an issue with the nets killing everything within their grasp.

### Demand Stronger Protections for Seagrass on Cat Island, MS!

<https://www.thepetitionsite.com/442457613/demand-stronger-protections-for-seagrass-on-cat-island-ms/>

Author: Johnny N.  
Recipient: Mississippi Commission on Marine Resources

#### Petition:

The Mississippi Commission on Marine Resources is currently considering management measures that would place restrictions on a certain type of fishing around Cat Island in an effort to promote the conservation of submerged aquatic vegetation or "seagrass beds".

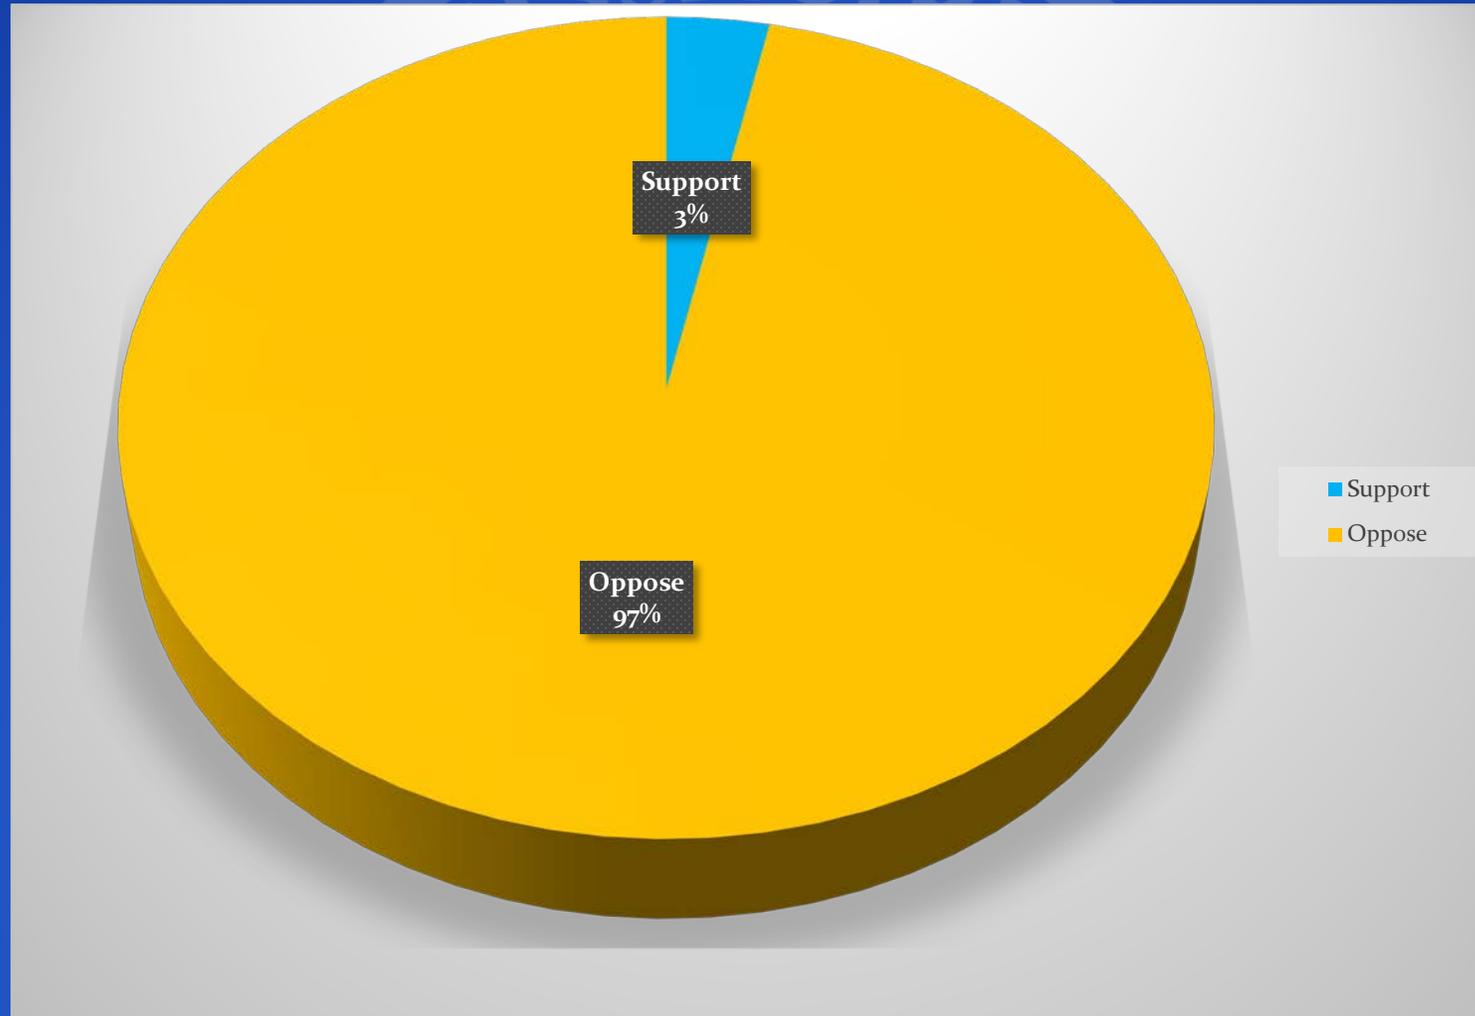

**Seagrass beds serve an important primary ecological function by providing habitat for a tremendous number of species that live in or depend on seagrass habitats.** Additionally, seagrasses are at the center of vast web of carbon and nutrient exchange spanning from the land all the way to coral reefs and into deep ocean trenches.

Extremely productive environments, seagrasses serve many environmental benefits. They also produce seeds that float and can drift all the way down into the deep ocean where they become an important source of food for other organisms. Fish also move seagrass nutrients around. Juvenile fish in mangrove forests or salt marshes often feed in seagrass, and large reef fish juveniles live in the seagrass before moving to the reef as adults. Other fish move from seagrass to offshore environments, forming a connection all the way from land to mangrove/salt marsh to seagrass to reef and beyond into the vast pelagic realm. Unfortunately, seagrass is often buried by sediment or nutrient runoff, ripped up to make navigation channels or docks, or drowned by climate change. **Additionally, studies have indicated that the primary cause of shallow-water seagrass damage is from fishing vessels propellers and anchors.**

Tell the Mississippi Commission on Marine Resources that their Notice of Intent to modify, change, and amend Title 22, Part 05, Chapter 04 to create an exclusion zone around Cat Island **does nothing to protect sensitive seagrass beds on the island** and that you oppose this regulatory change and it should be rejected.

Activities such as motoring through seagrass, anchoring, wading, using trolling motors, power poles and push poles in sensitive seagrass areas around Cat Island should be protected by the Mississippi Commission on Marine Resources around Cat Island, MS.

# Cat Island Public Hearing Comments

# 2. Public Comments - Summary

NOI was filed on August 8, 2018 for a Public Hearing

- Notice of Intent Published on July 18, 2018
- Public Comment period July 19<sup>th</sup> through August 20, 2018 (33 days).
- To date 1,022 public comments have been received.
- Care2 petition with 19,446 comments opposing all activities that harm seagrass beds on Cat Island.
- 78 requests for a public hearing were made.
- A Public Hearing was scheduled for Tuesday September 11, 2018 at 6:00 p.m. in the Bolton Building Auditorium.
- 78 requests for an Economic Impact Statement to be conducted.

## 2. Summary of All Public Comments

A total of 1,022 public comments have been received concerning the proposed commercial net ban within one-mile of Cat Island.

Care2 petition with 19,446 (30,487) comments opposing all activities that harm seagrass beds on Cat Island.

1. 681 comments support the commercial net ban around Cat Island.
2. 340 comments oppose the commercial net ban around Cat Island.
3. 19,446 oppose all activities, including both commercial and recreational, that damage the seagrass beds on Cat Island.
4. 2 groups support the ban: HOSSFLY and the Sierra Club.
5. 2 groups opposes the ban: Mississippi Commercial Fisheries United and Gulf Restoration Network.

## 2. A. Summary of Public Comments Supporting the Commercial Net Ban Around Cat Island

681 comments in support of the commercial net ban around Cat Island.

- Limit commercial fishing to weekdays – no commercial fishing on the weekends.
- Oppose commercial net fishing around Cat Island.
- Support commercial hook-and-line fishing.
- Ban all commercial nets in Mississippi.
- Reduce the total numbers of Haul Seines and Gill Nets.
- Opposition to selling commercially caught SST out of state.
- Commercial hook-and-line should abide by the same size and quantity limits as the recreational fisherman and should not be allowed to sell over 30 trout per day.
- Require all commercial fishermen and Seafood Markets to fill out and submit Trip Tickets.

## 2. B. Summary of Public Comments Opposing the Commercial Net Ban around Cat Island – MCFU Petition

1. On August 6<sup>th</sup> Ryan Bradley submitted 17 comments on a form letter
2. August 10<sup>th</sup> MCFU Board Statement
3. On August 13<sup>th</sup> submitted the form letter with 38 comments. Summary of the comments on the form letter:

5. On August 21<sup>st</sup> Ryan Bradley submitted 8 comments on a form letter for a total of: 78

1. Opposes the proposed fish net ban on Cat Island.
2. Requests an oral hearing be held on this proposed regulatory change.
3. Requests that an Economic Impact Statement be conducted.
4. Request that best available science be available and be considered with this proposal.

### Example of form letter

Mississippi Department of Marine Resources  
ATTN: Joe Jewell  
1141 Bayview Avenue  
Biloxi, MS 39530

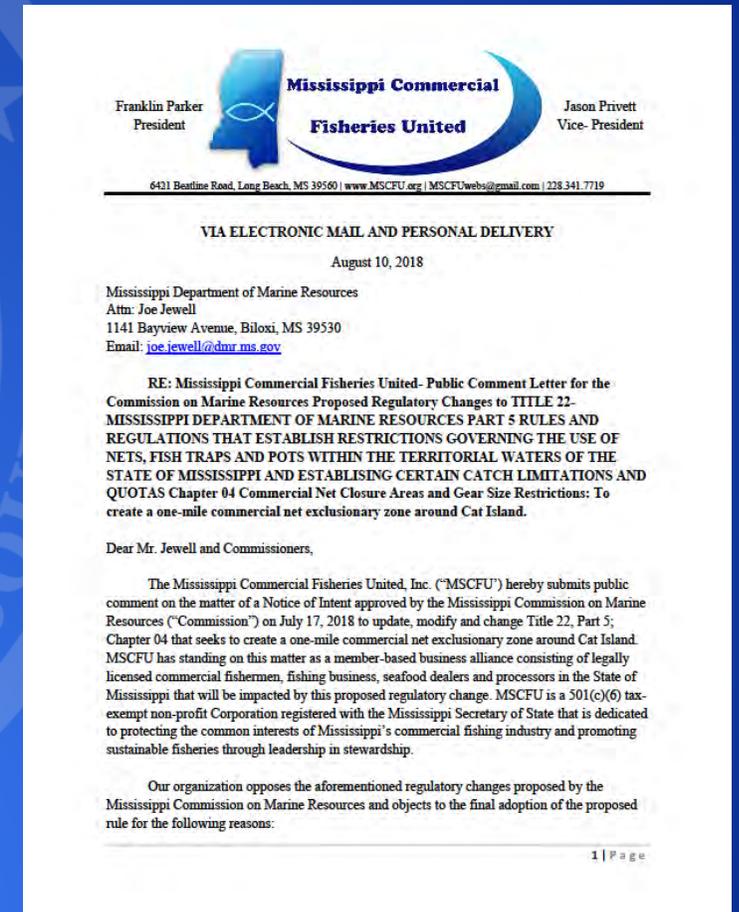

I oppose regulatory changes being proposed by the Mississippi Commission on Marine Resources to Title 22 Part 5, Chapter 4 that would make it unlawful for any person, firm, or corporation to catch take or carry away any saltwater fish by or with any gill nets, trammel nets, purse seines, seines, fish traps, or any other like contrivances within an area formed by a line running one (1) mile from the shoreline of Cat Island. This proposed regulation will have a severe adverse impact on my commercial fishing business and affect my ability to make a living commercial fishing. I request that an oral proceeding be held before final adoption of this proposed regulation is voted upon. Due to the fact that this regulation is likely to have an adverse economic impact to the commercial fishing industry in excess of \$100,000.00 in total I request that an economic impact statement be conducted. I also request that the need for this proposed regulation be clearly conveyed and that the best available science supporting the proposed regulation be presented before this proposed rule is considered for final adoption.

## 2. B. Summary of Public Comments Opposing the Commercial Net Ban around Cat Island – MCFU Organization Statement

1. Proposed changes are not consistent with standards for fishery conservation and management as required by MCA §49-15-2.
2. No valid reason for the proposed regulation was stated publicly.
3. The Notice of Intent for the proposed regulation was not properly authorized by the Commission on Marine Resources.
4. The approval of the Notice of Intent for the proposed regulation is arbitrary and capricious.
5. The proposed regulation has a disparate impact against a certain class of commercial fishermen in violation of the Fourteenth Amendment to the United States Constitution.

# 2. B. Summary of Comments from Online Care2 Petition as submitted by Ryan Bradley

A total of 251 signatures submitted on August 20, 2018 by Ryan Bradley

1. Where's all the data for closing these waters - my guess there is no data.
2. Because I'm a fisherman in Mississippi I support my family with my boats and this would put a burden on my income.
3. We need commercial fishing to stay here in the USA and provide America our fish. Keep the nets.
4. CCA is the enemy of hard working commercial fishermen. They won't be happy until all seafood is imported.

## 2. B. Summary of Comments (19,446) from Online Care2 Petition as submitted by Johnny Neetbaum

Tell the Mississippi Commission on Marine Resources that their NOI to modify, change, and amend Title 22, Part 5, Chapter 4 to create an exclusive zone around Cat Island does not do enough to protect sensitive seagrass beds on the island and that this regulatory change should be rejected to include broader protections for these important habitats.

Activities such as motoring through seagrass, anchoring, wading, using trolling motors, power poles and push polls in sensitive seagrass areas around Cat Island should also be included in the Mississippi Commission on Marine Resources protections for seagrass around Cat Island, MS

### Demand Stronger Protections for Seagrass on Cat Island, MS!

<https://www.thepetitionsite.com/442/457/613/demand-stronger-protections-for-seagrass-on-cat-island-ms/>

Author: Johnny N.  
Recipient: Mississippi Commission on Marine Resources

#### Petition:

The Mississippi Commission on Marine Resources is currently considering management measures that would place restrictions on a certain type of fishing around Cat Island in an effort to promote the conservation of submerged aquatic vegetation or "seagrass beds".

**Seagrass beds serve an important primary ecological function by providing habitat for a tremendous number of species that live in or depend on seagrass habitats.** Additionally, seagrasses are at the center of vast web of carbon and nutrient exchange spanning from the land all the way to coral reefs and into deep ocean trenches.

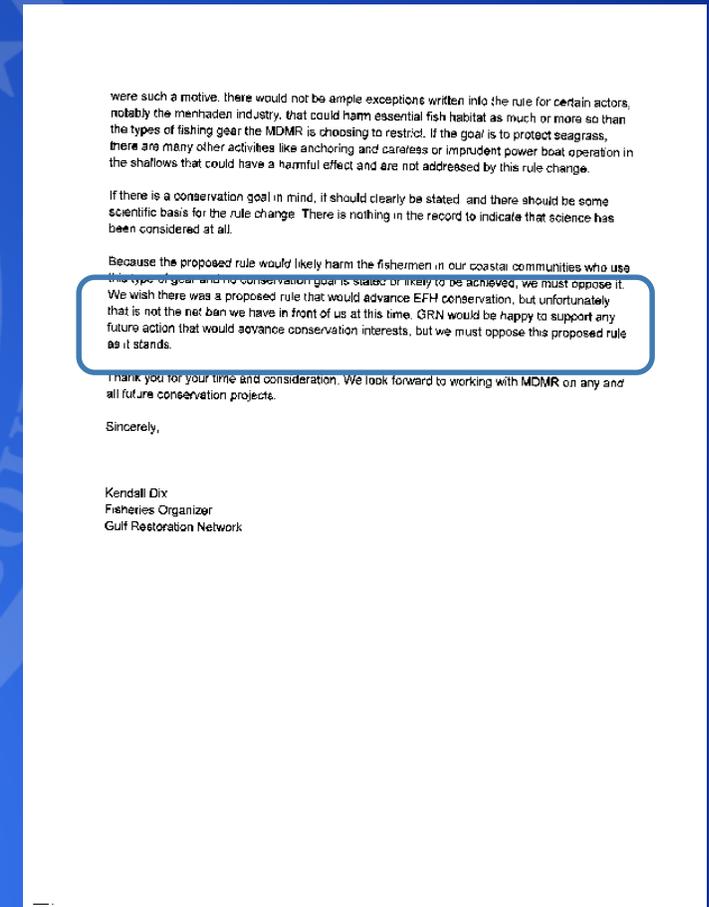

Extremely productive environments, seagrasses serve many environmental benefits. They also produce seeds that float and can drift all the way down into the deep ocean where they become an important source of food for other organisms. Fish also move seagrass nutrients around. Juvenile fish in mangrove forests or salt marshes often feed in seagrass, and large reef fish juveniles live in the seagrass before moving to the reef as adults. Other fish move from seagrass to offshore environments, forming a connection all the way from land to mangrove/salt marsh to seagrass to reef and beyond into the vast pelagic realm. Unfortunately, seagrass is often buried by sediment or nutrient runoff, ripped up to make navigation channels or docks, or drowned by climate change. **Additionally, studies have indicated that the primary cause of shallow-water seagrass damage is from fishing vessels propellers and anchors.**

Tell the Mississippi Commission on Marine Resources that their Notice of Intent to modify, change, and amend Title 22, Part 05, Chapter 04 to create an exclusion zone around Cat Island **does not do enough to protect sensitive seagrass beds on the island** and that this regulatory change should be rejected to include broader protections for these important habitats.

Activities such as motoring through seagrass, anchoring, wading, using trolling motors, power poles and push poles in sensitive seagrass areas around Cat Island should also be included in the Mississippi Commission on Marine Resources protections for seagrass around Cat Island, MS.

## 2. B. Summary of Comments by Gulf Restoration Network as submitted by Kendall Dix Submitted on August 20, 2018

1. GRN opposes proposed rule as written because they are not supported by scientific evidence and do not address other activities...
2. GRN would support any action by the MDMR that would protect seagrass or other EFH
3. Notes that nothing in proposed rule documents or public notices has a conservation motive by banning haul seines.

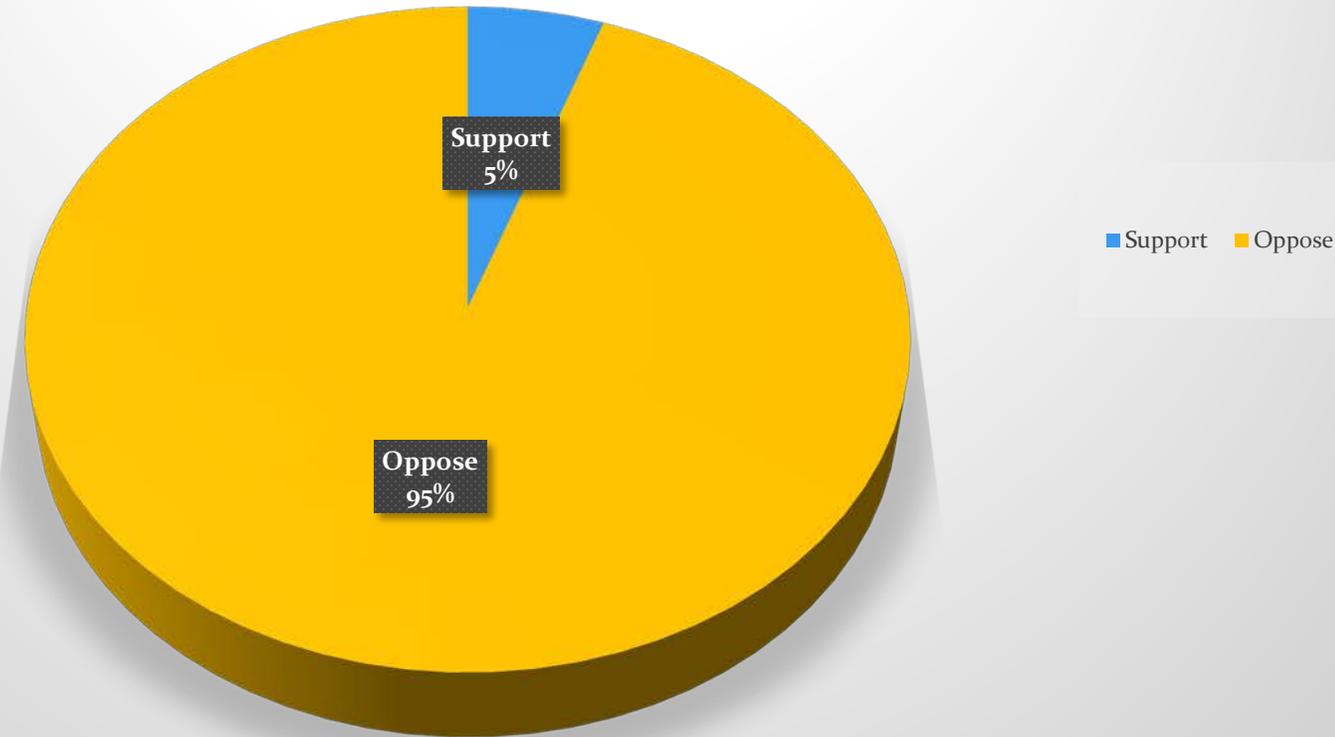

## 2. B. Summary of Public Comments Opposing the Commercial Net Ban around Cat Island

- Would like the MDMR to take into consideration that this would have a large financial impact on the local economy.
- No scientific basis to support this action and is purely discriminatory.
- If CMR is truly concerned about SST on Cat Island they should conduct a scientific survey to determine how each user group is affecting the resource on Cat Island.
- Will have great economic impact on commercial fishermen and the local economy.
- This action will reallocate resource from one user group to another.
- Recreational fishermen have it all and now they want to take away Cat Island.
- If enacted will further reduce commercial fishermen's area to fish.
- Finds it highly discriminatory as a net fishermen when other commercial activities can continue such as charter fishing, rod and reel fishing, crabbing and shrimping.
- Has large investment in commercial gear (boats and motors).

# Summary of All comments

Chart Title

# Title 22 Part 5

## Chapter 04 Commercial Net Closure Areas and Gear Size Restrictions

### Section 101

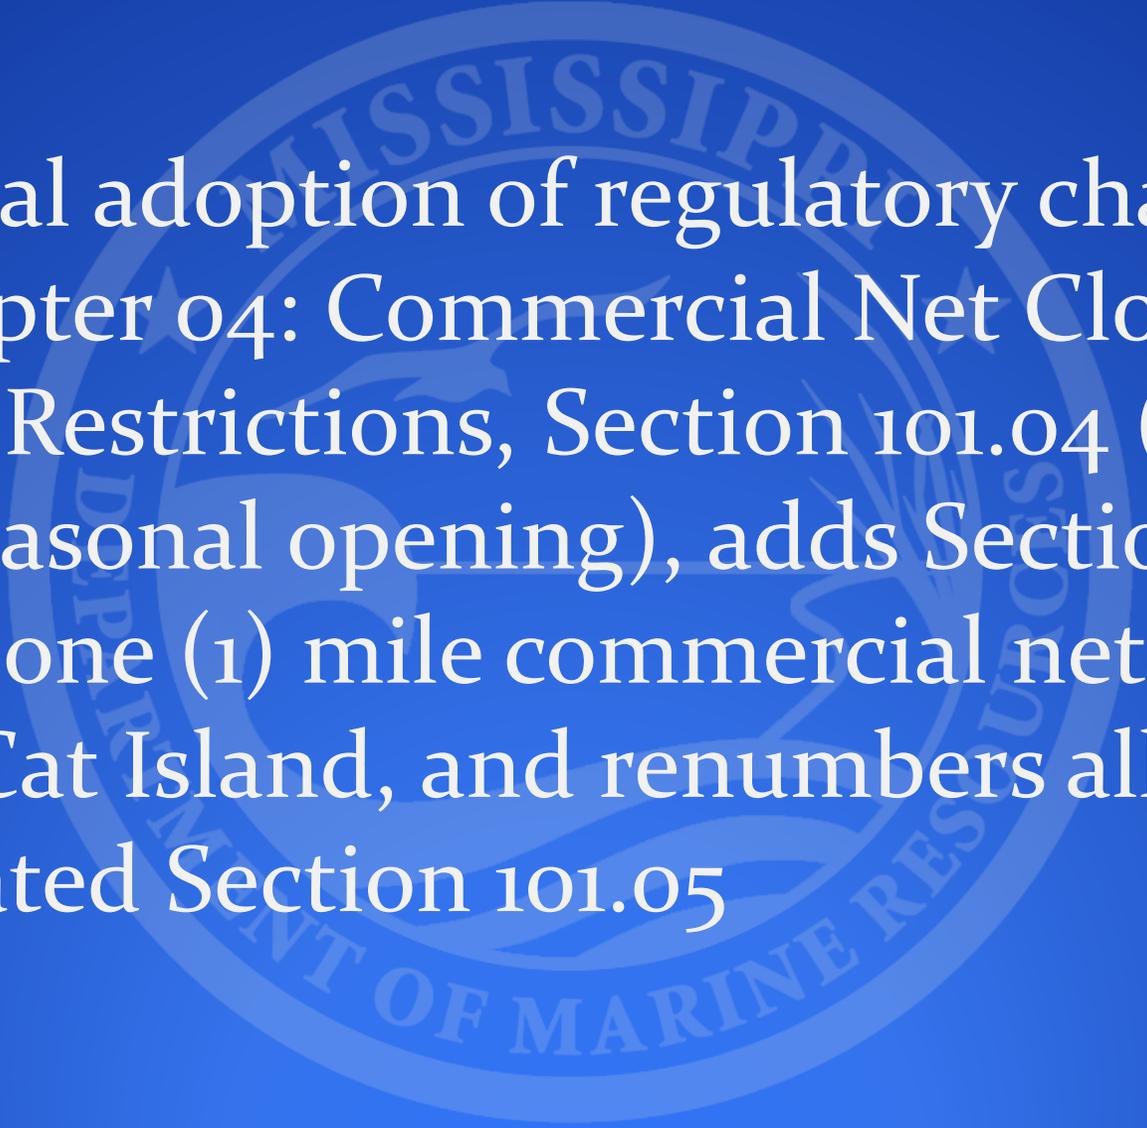

- 101.04 Within an area formed by a line running one (1) mile from the shoreline of Cat, Ship, Horn, Petit Bois, and Round Island, or from the shoals of Telegraph Keys and Telegraph Reef (Merrill Coquille), during the period from May 15 to September 15 of each year.
- 101.05 Within an area formed by a line running one (1) mile from the shoreline of Cat Island

# Title 22 Part 5

## Chapter 04 Commercial Net Closure Areas and Gear Size Restrictions

### Section 101

- ~~101.05~~ 101.06 Within twelve hundred (1,200) feet of any private piers which extend a distance of seventy-five (75) feet or more from the shoreline, except when mullet fishing.
- ~~101.06~~ 101.07 Within three-hundred (300) feet of any private piers which extend a distance of seventy-five (75) feet or more from the shoreline when mullet fishing.
- ~~101.07~~ 101.08 All of the aforementioned piers must be in usable condition with boards spaced in such a way that persons can walk the entire distance of the pier.
- ~~100.08~~ 101.09 It shall be unlawful for any person, firm, or corporation to use at any time trammel nets, gill nets, seines, or any other like contrivances in excess of twelve-hundred (1200) feet in length. Except when fishing gill and trammel nets between October 15 through December 15 of each year, nets must be of a mesh size of one and one half (1-1/2) inch square, three (3) inch stretch or larger, and it shall be unlawful for any boat to use more than one (1) such net. Between October 15 through December 15 of each year, gill and trammel nets must be of a mesh size of one and three-fourths (1 3/4) inch square, three and one-half (3 1/2) inch stretch or larger, and it shall be unlawful for any boat to use more than one (1) such net.
- ~~100.09~~ 101.10 It shall be unlawful for any person, firm, or corporation other than licensed menhaden vessels engaged in menhaden fishing, to use or have in possession purse seine(s) in excess of fifteen hundred (1500) feet in length. Said nets must be of a mesh size of one-half (1/2) inch square, one (1) inch stretch or larger.
- ~~100.10~~ 101.11 It shall be unlawful for any person, firm, or corporation to leave a gill net, trammel net, purse seine, seine or any other net like contrivance governed by the restrictions set forth in this Part unattended in the waters of this state, and at least one person shall be required to stand by, within one boat length of the boat using said net, at all times the net is in the water. It shall further be unlawful for any person, firm, or corporation to use or have in their possession a gill net, trammel net, seine or like contrivance on the waters of this state without a visible buoy attached every one hundred (100) feet clearly marked with the license number or owner's full name thereon.

The seal of the Mississippi Department of Marine Resources is faintly visible in the background. It features a central figure, possibly a fish or a similar marine creature, surrounded by the text "MISSISSIPPI DEPARTMENT OF MARINE RESOURCES".

Motion for final adoption of regulatory changes to Title 22 Part 5, Chapter 04: Commercial Net Closure Areas and Gear Size Restrictions, Section 101.04 (removes Cat Island from seasonal opening), adds Section 101.05 establishing a one (1) mile commercial net restriction zone around Cat Island, and renumbers all section after the newly created Section 101.05

# Mississippi Oyster Task Force

Kristina Broussard

September 2018

K.4.

# CMR Authority

§ 49-15-25. Advisory council may be appointed by commission

The commission may appoint an advisory council of persons who may fairly be regarded as representative of all the various segments of the industry. This council shall aid the commission in formulating policies and discussing problems related to the administration of this chapter and the advancement and protection of the industry.

# Purpose and Goals

The purpose of the Mississippi Oyster Task Force is to:

1. Optimize Mississippi's oyster fishery through increased communication within the fishery
2. Make recommendations to the MDMR and CMR

Goals of the Mississippi Oyster Task Force are to:

1. Identify problems within the oyster fishery and possible solutions
2. Encourage conservation of the resource and its habitat
3. Improve the overall value of the oyster fishery

# Objectives

- Identify and prioritize challenges within the oyster fishery/industry
- Make recommendations to the CMR pertaining to the oyster fishery that are based upon sound biological and economic principles
- Take appropriate steps, such as preparation of proposed legislation, to resolve problems and issues

# Membership

- Seven (7) Voting members:
  - Two (2) Dealers/Processors
  - Two (2) Tengers
  - Two (2) Dredgers
  - One (1) Aquaculture Representative
- Seven (7) Non-Voting Members:
  - One (1) CMR Commissioner Representative
  - One (1) MDMR Marine Patrol Officer
  - One (1) MDMR Marine Fisheries Scientist
  - One (1) MDMR Oyster Aquaculture Scientist
  - One (1) GCRL Representative
  - One (1) Elected Official
  - One (1) MDMR Chief Science Officer

Required:

Motion: To Proceed With The Establishment Of The Mississippi Oyster Task Force

Motion: To Proceed With The Establishment Of The Mississippi Oyster Task Force upon commission approval of the representatives. The task force shall include a recreational representative and shall be established for a period of one year.

### Public Notices

#### Title 22 Part 07 - Finfish Size and Bag Limits (Mutton Snapper) - Proposed Changes

The Mississippi Department of Marine Resources (MDMR) does hereby give public notice that on August 21, 2018 at the regularly scheduled meeting of the Commission on Marine Resources, the Commission approved a Notice of Intent to update, modify and change below listed sections of Title 22 Part 7. Said Notice of Intent was filed with the Mississippi Secretary of State's office on August 22, 2018. A complete copy of Title 22 Part 7 and the proposed changes are available at [www.dmr.ms.gov](http://www.dmr.ms.gov). Public comments on the proposed regulation changes will be accepted through September 17, 2018. All comments should be mailed to the MDMR, Attn: Brittany Chudzik, 1141 Bayview Avenue, Biloxi, MS 39530 or emailed to: [Brittany.chudzik@dmr.ms.gov](mailto:Brittany.chudzik@dmr.ms.gov) and delivered by 5:00 PM on September 17, 2018.

Complete description of proposed changes:

TITLE 22 - MISSISSIPPI DEPARTMENT OF MARINE RESOURCES, PART 7 Regulations to Provide Size Limits and Bag Limits on Certain Fish Species and to Prevent Sale of Seafood by Recreational Fishermen

Chapter 8 - Recreational Bag, Possession and Size Limits

Section 100

100.12.02 Mutton Snapper (*Lutjanus analis*) - ~~may possess five (5) within the ten (10) fish aggregate~~
