

***Mississippi Gulf Coast National Heritage Area
Heritage Community Grant
Request for 2022 Funding General
Instructions***

Purpose and Scope of NHA

The purpose, of the National Heritage Area program is to enhance, conserve, and provides connectivity to cultural resources of a unique and defined area through identification, interpretation, and promotion. These cultural resources of National Heritage Areas provide authentic experiences and serve as a source of pride and identity. Stakeholders in this effort benefit from increased awareness and appreciation of their environment, history, culture, traditions, and lifestyles. The economic effects of heritage resources benefit the entire region and support the long-term enhancement and conservation of those qualities that make National Heritage Areas unique. The Mississippi Coast National Heritage Area (hereinafter referred to as MS Coast NHA), working through the Mississippi Department of Marine Resources, administers the National Heritage Area program for the six counties that make up the MS Coast NHA. Your MS Coast NHA is a partnership of communities, businesses, governmental agencies, non-profit organizations, and individuals who value the region's rich cultural and environmental diversity, history, natural beauty, and traditions. These partnerships tell the Mississippi Gulf Coast's story of its national significance. Visitors experience the Heritage Area through a set of integrated themes that forefronts the Coast's unique qualities and emphasizes the important role the region has played in history.

Funding for the MS Coast NHA's Heritage Community Grant program is provided by the National Park Service.

What Types of Applicants Are Eligible to Apply

To help accomplish the goals and objectives of the MS Coast NHA Management Plan, the program offers matching grants to provide and leverage funding for innovative projects across the region that preserve, interpret, and develop heritage resources within these thematic areas and that expand economic opportunity.

The MS Coast NHA Program is interested in projects that are:

- Regional or multi-county in scope.
- Involve active partnerships between organizations.
- Leverage substantial matches from project participants and other grantors.

The following six (6) counties of the Mississippi Coast NHA region are eligible to apply for a grant and are as follows:

- George
- Hancock
- Harrison
- Jackson
- Pearl River
- Stone

The following types of organizations serving in the six (6) county MS Coast NHA region are eligible to apply for a grant:

*The Gulf Coast Outpost business recognition program is part of the 2016 Nature-Based Tourism Plan for Coastal Mississippi. Both the plan and checklist can be downloaded at <http://msgulfcoastheritage.ms.gov/natural/gulf-coast-outpost/>.

The plan was developed for the Heritage Area by stakeholders in the industry. Business owners and operators are recognized through a checklist that focuses on training, sustainability and stewardship. The program is aimed at those companies whose primary business is dependent on the natural environment in Mississippi's six coastal counties. This includes eco tours, locally owned outfitters, charter boat operators, tour guides, eco-lodges and agritourism entities.

The MS Coast NHA does not provide grants to individuals.

Please note that the MS Coast NHA will not award funding for any open Heritage Community Sub-Grant Agreements. Previous Sub-Recipients must be in good standing and have all projects closed out before being eligible to apply for the next round of funding.

The project must constitute a new activity for the applicant rather than the continuation of an existing program. Expansion of an existing program to serve new audiences and/or explore new content may constitute a new activity.

The Advisory Committee will determine any weighting of evaluation criteria. Grant applicants may be asked to provide clarification and additional information during review process. The 2020/2021 grant cycle is expected to be competitive.

All applications must fall into at least one (1) of four (4) project categories (historical, cultural, natural resources or recreation).

All applications must serve at least one (1) of the six (6) coastal counties of Mississippi.

Grant awards will provide for equitable distribution of available funds to grants related to all counties that apply for funds in each year.

Grantee Reporting Requirements

Quarterly progress report forms are due for each quarter a grant is active. Final report on annual use of funds is due to MS Coast NHA to staff no later than **Monday, July 31, 2023**.

Due with the Final Report are Final Financial Report Form, photographic evidence of the finished project and progress, and accurate acknowledgment of MS Coast NHA Heritage Community Grant funding in documents, on plaques, and/or signage.

Eligible Project Cost

The MS Coast NHA Community Grant funds may be used to cover project costs that are necessary and reasonable for the accomplishment of project objectives. Such costs may include labor, services, materials, equipment (with a per-unit cost of \$5,000 or less), supplies, and travel. Grant funds may not be used to purchase real estate or real property.

The grant application must include a completed Project Budget Form, which provides a framework for itemizing the project budget.

Applicants may include indirect costs in their proposed grant budgets. Indirect costs are costs incurred for a common or joint purpose benefitting more than one project or program (including the proposed grant project) that are not readily apportioned between those projects or programs. Examples may include the costs of rent, utilities, and accounting.

If an applicant has a current negotiated indirect cost rate with a Federal agency, that rate may be requested in the grant proposal. If the applicant does not have a current negotiated indirect cost rate with a Federal agency, the applicant may use a rate of 10% of the direct costs to be charged

to the grant. Indirect cost rates may not be applied to the costs of equipment, however. Applicants have the option of not including indirect costs in their grant budgets.

By way of illustration, a grant applicant requesting \$9,000 in direct project costs could opt to include another 10% in indirect costs in the proposed grant budget. The total request would amount to \$9,900 (\$9,000 direct + \$900 indirect). In the same scenario, the total match would need to be at least \$9,900.

Matching Contributions

To be eligible for a grant, the applicant must provide at least an equal (dollar-for-dollar) match for the proposed project. The match may come from another non-federal grant, from the applicant organization, from its partners in the project, or from any combination thereof. All of the match must come from non-federal sources.

The match may consist of real dollars or in-kind (non-cash) contributions of labor, services, materials, equipment, supplies, and/or travel expenses that are necessary and reasonable for the accomplishment of project objectives. Purchases of real property may not be counted as a match. Overhead and general administrative costs are not acceptable matches (but some overhead and general administrative costs may be included as a grant expense per the discussion of indirect costs above). Donated professional services and volunteer labor may be counted as matches.

All sources of matching contributions must be documented at the time of application. This must include a letter signed by the applicant organization's financial officer or authorized representative which documents the amount of matching funds being contributed to the project budget. Matching contributions that have been secured at the time of application are preferred. If the match is pending (e.g., from another grant application), the application should note the date the match is expected to be confirmed.

Any project funded by an MS Coast NHA grant will be required to provide verifiable documentation that matching funds have been spent and that matching in-kind contributions have been received.

Cost Reimbursement

Grant funds are provided on a reimbursement basis that is, grant funds are provided only after project costs are incurred and paid for by the grant recipient. To request a reimbursement, the grantee must submit a progress report and documentation of paid expenses and matches including receipts, paid invoices, copies of checks and a ledger of expenses charged to the grant. Documentation of in-kind contributions must be itemized to show the amount and value of contributed labor, services, and materials. Additional documentation may be requested.

If there is a compelling need for advance funds to start the project, the applicant may request partial advance payment in the grant application. The MS Coast NHA will consider such requests on a case-by-case basis. Partial advance payments may not exceed 50% of the total grant award. Advance payments that are approved will be made upon signing of the grant agreement.

At the time of the reimbursement request, the recipient must also provide match support in the amount equal to or within 5 % of the amount requested. The final payment will not be processed until the recipient has provided the full amount of the required match.

Electronic payment is required and can be set up through Paymode, by using this link, <http://portal.paymode.com/mississippi>, or by calling 877-443-6944. You will need to follow the steps at each prompt. Setting up a Paymode account will permit DFA to link accounts and this will allow for reimbursement requests to be received in a more timely manner than paper checks.
