Tuesday, August 23, 2022, at 11:59 PM CST**

Job Type

Full-Time

Job Number

9411-0450-20220810ha

Agency Minimum Salary

\$51,693.41

Agency Maximum Salary

\$67,847.61

About the Position

This is scientific supervisory work in the Shrimp and Crab Bureau of the Mississippi Department of Marine Resources (MDMR) with responsibility for providing coordination and supervision of the bureau to ensure that the Department fulfills its management, program, and regulatory mandated mission. The work involves formulating, initiating, directing, controlling, and implementing the program through subordinate personnel and requires technical education and/or expertise in the unique program areas assigned. The incumbent recommends substantive program policy in accordance with state and federal regulations and decisions of the Commission on Marine Resources and provides input into significant Department operations. Coordination of the work with other offices, bureaus, and divisions within the Department and with other control authorities and special interest groups is required. Supervision may be exercised over subordinate technical staff, or the incumbent may functionally supervise a major program initiative. The work is subject to periodic review by a Bureau Director to whom the incumbent reports.

What you'll need to be Successful

Knowledge of crustacean biology and life history; knowledge of general fishery management principals and sampling techniques; ability to effectively manage personnel and monitoring and regulatory programs; ability to interpret the laws and regulations related to shrimp and crab fisheries; ability to effectively collaborate with stakeholders, partners, and fisheries staff to implement management changes.

Preferred Qualifications

Requires a bachelor's degree and a minimum of 4 years' experience.
