

Amendment One- Questions and Answers Solicitation 3160006488 Invasive Mapping - Wachovia Tract.

1. The Project Schedule mentions two sampling seasons; are these two separate, complete sampling events (i.e. the same area covered during each event)? **Yes.**
2. What is the minimum acceptable level of area surveyed? The scope of services mentions "the majority of the tract" which denotes 51% coverage. **Not sure where the 51% is mentioned but we need as much of the tract as possible so the minimum would be 90%.**
3. Under Deliverables, a monthly summary report is required. Is this to include all data collected to date (i.e. plant species/condition/life stage/density, etc.), or merely a summary of the data collected? **Should include all data collected, activities conducted, issues, acres surveyed, % complete.**
4. What is the deadline to submit the monthly summary report(s)? **At the end of the week of the first week of the following month.**
5. Under Deliverables, item #4 is incomplete and states, "regardless of methodology, the following data must be collected...." Item #4 lists data to be collected and then a random table contains information below item #5. Please clarify data required to be collected. **Data listed in the table should be collected.**
6. Where did the List of Priority Invasives in Attachment A come from? Is the list specific to the site? Regional? Statewide? **Regional.**
7. Has this survey/mapping occurred on the site in the past? If so, will contractor be provided the data? **No survey has been conducted.**
