AMENDMENT 1

RFX 3140004294

FURNISH AND DEPLOY APPROVED CULTCH MATERIAL

QUESTIONS AND ANSWERS

-Are there any liquidated damages for going over the allotted contract duration (October 1, 2025 – June 30, 2026)?

No liquidated damages will be assessed.

-Will a bid bond and Performance and Payment Bonds need to be furnished?
If so, what percentage or the above bonds will be needed?

Per 11. BOND REQUIREMENTS (page 14) there are no bonds required.

-What type of survey will be required for the as-built surveys performed for partial and final payment invoices?

There are no surveys required.

-Where is the overall project location?

Pascagoula

-Will the deployment locations be given before the bid date?

The exact locations have not been determined yet.

-How thick must the cultch material be sprayed at each location to achieve acceptance of the project?

The cultch material, consisting of approved cultch material, is planned to be deployed at a target density of 125 cubic yards per acre. Additionally, the project includes the construction of three mounded features designed to provide enhanced vertical relief, with each mound approximately 500 feet long, 10 feet wide, and 16 inches in height.
